

Name: Benjamin Tham  
College: Fitzwilliam  
Running for: Logistics Officer

Proposer: Ho Jun Wei, Fitzwilliam College  
Seconder: Wen Yu Sheng, Queens' College

### Motivations for running

An active CUMSA is probably the best way in which freshers and current members alike may engage themselves in Singaporean-oriented activities. Camp Bridge, for example, was very useful in introducing Cambridge-bound freshers to one another and eased their transition from home to here. The recently concluded Asian Food Fest was also an event in which many Singaporeans came together for an evening of good food and conversation. Having participated in events like these has led me to want to bring this applaudable spirit to the future batches of students to come.

The smooth running of events requires an apt handling of logistics. Even though I read engineering and love to approximate stuff, I believe I am capable enough to handle the logistics department of the association. Having gone through 2 years of National Service as a dedicated crew chief in the air force, which entailed the good bookkeeping of tools and gadgets, has made me a meticulous person.

### Goals to achieve

Logistics side of things:

- Ensuring the smooth running of events like the Oxbridge games and Freshers' camp. Hiccups are sometimes invariably unavoidable, but I hope to reduce them to a painless and relatively less noticeable state.
- Keeping track of the CUMSA stores and their good condition.

General side of things:

- Increasing the participation of fellow Singaporeans to events by offering help to organize either more numerous or large-scale events, like formals.
- Have greater interaction with the Singaporean societies of other universities via games, dinners etc.

I believe that having the prior experience of being a Sectional Leader in the RJC Guitar Ensemble will make me a good team member in the committee. Having said that, it would be an honour for me to be part of this new committee and I would do my best to ensure that the goodwill spirit of CUMSA is kept alive!

Thank you!
