### Verbosity

I think most freshers would agree that CUMSA means more to us than just a regular society with a calendar of events—it's a place we can go to for lasting friends and a little reminder of home. I've definitely benefitted lots from the generosity and support of parents, peers, and seniors (PPS!), and couldn't have adjusted to life in Cambridge so well without CUMSA. I would love to be a part of the next committee to pay it forward.

Why logistics? Contrary to what my choice of subject may suggest, I believe I'm a fairly meticulous person and comfortable enough with numbers to stay on top of supplies. I've had previous experience overseeing logistics serving as treasurer and captain of my secondary school CCA (Wushu) and also in selling merchandise for a service-learning project in JC. Of course, serving on the committee is not just restricted to this capacity and I believe I can also contribute in general event-planning and being as \*friendly\* as I can.

CUMSA is unquestionably my first priority and I hope that you will give me a chance and vote for me! Thank you!
